

SUMMARY

IT Support and Cybersecurity graduate with hands-on experience providing Tier 1 and Tier 2 technical support in enterprise and client-facing environments. Proven ability to troubleshoot endpoint, access, and connectivity issues while maintaining clear communication with non-technical users. Brings a calm, methodical approach to incident handling, strong documentation practices, and a solid foundation in security awareness, system administration, and IT service management

- CORE SKILLS
- Tier 1 & Tier 2 IT Support
 - Windows OS & Endpoint Troubleshooting
 - User Account & Access Management (AD, MFA)
 - Hardware & Software Installation
 - Incident Management & Escalation

- Ticketing Systems & Documentation
 - LAN / WAN Fundamentals
 - Vulnerability Scanning & Risk Awareness
 - SIEM Monitoring (Foundational)
 - Customer & End-User Support

- PROFESSIONAL EXPERIENCE
- SecureLogix – IT Support & Cybersecurity Analyst

Jan 2024 – June 2025

- Provided Tier 1 and Tier 2 technical support for internal users, resolving hardware, software, authentication, and access-related issues.
 - Monitored security alerts and logs using SIEM tools and followed established incident response and escalation procedures.
 - Assisted with vulnerability scans, IT risk assessments, and compliance support activities.
 - Supported user onboarding and offboarding, access reviews, and account hygiene practices.
 - Assisted with endpoint configuration, patching, and baseline system hardening.
 - Maintained detailed incident documentation, resolution steps, and follow-up records to support operational continuity.
- Tool-Go Inc. – Cybersecurity Intern

May 2024 – June 2025

- Assisted with supervised penetration testing and vulnerability assessments across web and network environments.
 - Supported stress testing and denial-of-service (DoS) scenario analysis.
 - Reviewed security alerts and assisted in identifying potential indicators of compromise.
 - Contributed to technical reports outlining findings, impact, and remediation recommendations.
 - Maintained security documentation and asset inventories.
- Freelance – IT Support Technician

Feb 2023 – Present

- EDUCATION
- Bachelor of Information Technology (Information Security)

Ontario Tech University

Fall 2025 – Spring 2027
- Diploma in Systems Management & Cybersecurity (Graduated with Honors)

Oulton College

Fall 2024 – Spring 2025

- CERTIFICATIONS
- CompTIA A+
 - CompTIA Network+
 - CompTIA Security+
 - Cisco Certified Support Technician (CCST)

- Google Cybersecurity Certificate
 - ITIL Foundation

- ADDT. INFORMATION
- Languages: English (Fluent), Urdu/Hindi (Fluent), Punjabi (Fluent)
 - Open to full-time office-based and hybrid roles
